EXPERIENCE

Frontend Developer Trainee

SMIT Training Program

3/2024 - 12/2024

- Built responsive web pages using HTML & CSS
- Created e-commerce UI templates and deployed projects on GitHub
- Focused on layout, usability, and clean code

University Projects

08/2023

1. Quiz Management System

Java (GUI), MySQL, phpMyAdmin, XAMPP

- Developed a desktop-based quiz system with login functionality and score tracking
- Used Java GUI for front-end and phpMyAdmin for database management
- Worked collaboratively to implement admin controls and question handling

2. Shopping Website UI Template

HTML, CSS – Personal Project

Karachi, Pakistan

- Created a multi-category e-commerce layout (Women, Kids, Jewelry, etc.)
- Practiced responsive design, clean structure, and visual balance

3. Restaurant Management System

Java (GUI), MySQL, phpMyAdmin, XAMPP

- Building a system with admin/customer login, menu display, order tracking, and billing
- Backend database managed via phpMyAdmin with real-time record storage
- Collaborating with team members for frontend GUI and backend logic
